Building a sustainable future with OB Profils

We deeply believe our organization and our production, as close as possible to our customers, partners and subcontractors, make OB PROFILS a responsible company.

***Producing while respecting the environment,
our permanent challenge !***

Our Magnélis® cable trays and Zinc-Aluminium wire basket trays provide superior resistance to corrosion than Hot Dip Galvanization and a clean alternative to traditional surface treatments.

A responsible company with ...

✓ ***... a carbon footprint***

Calculating our GHG emissions through our carbon footprint allowed us to identify areas for improvement **to reduce our emissions** with less polluting supply chains; an optimization of our manufacturing process to preserve our resources or the rationalization of our transport

✓ ***... PEP certificates***

We have carried out **life cycle analyzes of our main products**. The results, available on the pep-ecopassport.org website, will allow you to choose **products with a low carbon footprint** and help build buildings that meet the new requirements of environmental regulations.

Download ecopassport® PEP certificates for our Made in France products on our website : www.ob-profils.com

Quality at OB Profils, is our commitment to excellence

ISO 9001 defines our commitment to excellence

Our quality policy defines our commitment to **customer satisfaction** and **continuous improvement** as part of our ISO 9001 approach.

Build lasting relationships

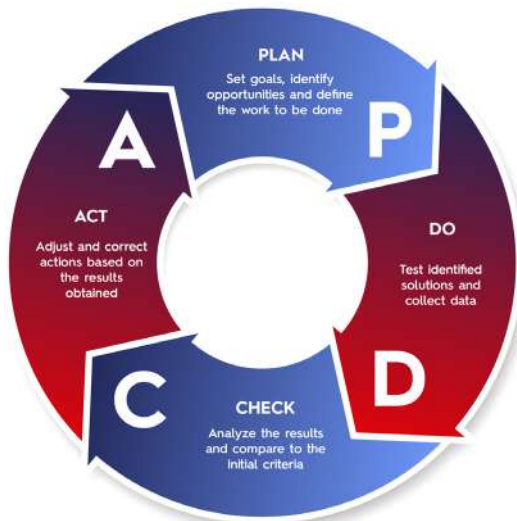

We are all committed to provide complete satisfaction to our customers. With a **loyalty rate of nearly 70%**, our customers demonstrate their attachment to our company.

Striving for excellence

Result of the commitment and involvement of our team over recent years

CABLE TRAY ENGINEERING

- ✓ **Customer satisfaction survey** to identify our strengths and areas for improvement
- ✓ **Definition of indicators** "we can only improve what we measure"
- ✓ **Mapping of the processes** that engage and empower our department heads
- ✓ **Continuous improvement** of the quality of our products and services with the PDCA method

Dynamic storage provisioned continuously

Logistics is an activity fully integrated into OB PROFILS which ensures deliveries in France and internationally.

In order to guarantee the availability of our products, the production unit replenishes storage several times a day as needed.

Logistics with a large loading amplitude

We manage large flows, prepare orders for export and ensure the stuffing of containers.

Our wood is "FSC" or "PEFC" certified and each package is identified by zone for optimal logistics.

Responsible journey for our products

In order to reduce our carbon footprint, **OB Profils** has entered into a partnership with **Transports Fauchaux**.

The latter invested in a truck with an on-board trolley running on rapeseed oil, now used for daily deliveries in Ile-de-France.

Our Made in France solutions are exported internationally !

Present in more than 20 countries, our partners and distributors trust us and entrust us with the supply of cable trays and support

Thus, for each of your projects, our export sales team is committed to supporting you from your price request to delivery to your sites.

We ensure rigorous document management: packing list, Solas certificate, certificate of origin, etc.

Do not hesitate to contact us for more information.
